

TONOSAFE TONOMETER PRISMS

Dependable clinical results using the highest optical clarity

Consistently reliable IOP

Calibrated to Goldmann standards and backed by clinical research, Tonosafe provides dependable clinical results. **Clinical data supports the validity of Tonosafe** as a reliable and accurate device for IOP measurement.

Avoids risk to patients

Tonosafe is a single use prism, which significantly **reduces the risk of cross-infection** between patients.

Reduce waste

Everything you need is supplied in one box, including prism holders, which can be reused so **the only waste is the plastic tip.**
